“ *Sadly, I've only just discovered this notice of Barbara's passing, more than two years ago.*

*For a while, Barbara and I corresponded by email on various family history topics of mutual interest, mostly about Kentucky ancestors. She was generous with her time and knowledge and really did go out of her way to be helpful to me. I feel a deep sense of loss myself, even from our rather casual and limited friendship. So, I feel I want to offer my heartfelt sympathy and encouragement to her family and close friends even at this late date.*

*She was a very special person. I only wish I had known her better and had made an opportunity to meet her in person.*
