“ *During Jennifer's childhood (and most of my work life) I worked a rotating shift. This was sometimes hard on family life and I missed out on some things a straight day shift parent wouldn't. However I think the Good Lord "throws you a bone" so to speak every once in a while to let you know he hasn't forgot about you, This is one of those times that I wouldn't have traded for a straight day shift job! Sometimes Jennifer would go to sleep in our bed with her mother when I was on the 4pm to midnight shift and I would carry her to her bed and tuck her in when I got home. This was one of those times... She must not have been completely asleep because when I turned the light on she threw her arm over eyes and said "The sun's getting in my eyes." I knew this was a memory I would cherish for the rest of my life and probably would not have ever experienced if I wasn't on a rotating shift. God is great !*
