“ Back in sept. 1977, when I was 18, new and green, I had to go to the Big Rivers intake with Warren and Vince Mullins to close a cell gate, which took a pretty long time. During this job, Warren said he was going to go and raise the river level on this side of the intake. Vince said he was going to raise the level on the other side. I told Warren that I was going with him to see what he was doing. He said in his slow voice, “If that’s what you want, then I guess it’s okay”. So I followed Warren to the upriver side. Needless to say, when he unzipped his pants, I caught on pretty quick. Warren was always a man you could learn from, even when the joke was on you!

“ *Jr. was all about family. He loved to get together as often as possible.  
He would organize the family reunion every year, plus other get togethers.  
He was a kind and thoughtful man, which we all loved. We will miss him  
a lot. May he rest in peace...*

“ *Warren was a calm, cool Control Room Operator & UAW 1701 Union President. I remember rabbit hunting across the parkway back in the early 1980s when I heard his voice come out of nowhere (from the intercom) announcing a boiler feed pump coming on & I thought; I know that was Warren.*
